CNOM recertification report

Website

- http://cnom.tssg.org/ (current address)
- Being updated and moved to a ComSoc domain
- Mailing list
 - cnom@inf.ufsc.br (current address) with 1322 subscribers
 - Also being move to a ComSoc domain
- We were suggested to consider collaborations with the TCs on Communications Quality and Reliability, Communications Software, and Internet
- We were suggested to nominate several CNOM members as Distinguished Lecturers

Purpose:

- For authors: fixed keywords to chose from
- For reviewers: fixed keywords to indicate area of expertise / interest. No need to continuously enter expertise again
- For organizers: match papers and reviewers
- Improve Quality of Reviews
- Has been implemented within the JEMS system and used for MANWEEK 09, NOMS 2010, CNSM 2011, NOMS 2012, CNSM 2012, IM 2013, NOMS 2014
- A new, updated version of the taxonomy has been defined and needs the community support

IEEE fellows from CNOM

- We wanted to map who are the IEEE fellows coming from the network and services management community
- Methodology
 - List all TPC members from NOMS and IM from 2004 to
 2014 → Our definition of "community" for this purpose
 - 2. For each member, check on IEEE database whether he/she is a fellow
 - 3. Keep track of fellows along the years

IEEE fellows from CNOM

- Out of 314 TPC members (no duplicates), 10 were found in the IEEE database → 3% only!
 - 1993: Aurel Lazar
 - 1994: Manu Malek
 - 1995: Shri Goyal
 - 1996: Doug Zuckerman
 - 2006: Henning Schulzrinne, Lixia Zhang, Randy Katz
 - 2010: Joseph Hellerstein
 - 2011: Morris Sloman
 - 2012: Raouf Boutaba
- How could we support CNOM members and increase the number of applications?
